CONTENTS

VOLUME 1, ISSUE Nos 1–4

Issue No. 1, January–March

Editorial 1

Individual AKR Lymphomas Differ in Expression of Lymphocyte Differentiation Antigens and Terminal Deoxynucleotidyl Transferase *A. L. Howell, E. R. Ritchie, D. K. Dennison, J. Y. H. Chan and J. P. Allison* 3

Properdin Factor B (BF) Polymorphism in Three Nigerian Tribes *P. T. Klouda, E. Williams, R. C. Okoye, W. E. R. Ollier, H. Festenstein and B. A. Bradley* 19

Increased Frequency of Factor B Fast Variant (*BF*F*) in the Idiopathic Nephrotic Syndrome of Childhood *R. H. McLean, T. L. Kennedy, M. Ballow, K. M. Gaudio and N. J. Siegel* 25

Alpha-1-Antitrypsin (PI) Types in Asian, Pacific and Aboriginal Australian Populations *M. I. Kamboh, R. L. Kirk and P. Clark* 33

Lesional B_2 Microglobulin in Oral Squamous Carcinoma and Preneoplastic Lesions *C. Scully* 43

Effect of Radiation Treatment on Serum Levels of Enolase Isozymes in a Thymic Carcinoid Patient *K. Kato, Y. Ariyoshi, Y. Ishiguro, K. Ota, T. Suchi and T. Sato* 49

CASE REPORT

A Transient Cathodal PI Phenotype in an Infant with Mild Persistent Jaundice *J. C. Mulley, G. Hill and A. McPhee* 55

REVIEW ARTICLE

The Human Hepatitis Viruses *R. Hopkins* 59

Issue No. 2, April–June

Editorial 101

REVIEW ARTICLES

Bacterial Plasmids and their Fingerprints *D. J. Platt* 107

The Use of Monoclonal Antibodies in the Analysis of Leukaemia and Lymphoma *H. Zola and A. Kupa* 117

HLA–DR5 and DR2 are Susceptibility Factors for Acquired Immunodeficiency Syndrome with Kaposi's Sarcoma in Different Ethnic Subpopulations *M. S. Pollack, B. Safai and B. Dupont* 135

A High Frequency *HIND* III Restriction Site Polymorphism within a Collagen Gene *B. Sykes* 141

Functional Properties of the DR Antigens Expressed on Melanoma Cell Lines as Stimulators of Primary and Secondary Proliferative and Cytotoxic T-Cell Responses *M. S. Pollack and J. Chin-Louie* 147

Issue No. 3, July–September

Population Genetics of Polymorphisms in Cardiff Newborn: Distribution of Phenotypes and Genes for the ABO, MN and Rhesus Blood Groups, and the ACP-1, ADA, EST-D and PGM-1 Enzyme Systems *C. Azimi-Garakani, M. Sarfarazi, R. D. Ward and J. A. Beardmore* 171

HLA and Myasthenia Gravis: A New Association *V. Lepage, S. Berrih, E. Morel, O. Real and L. Degos* 181

A Major Histocompatibility System Haplotype Associated with Poor Prognosis in Idiopathic Membranous Nephropathy *C. D. Short, P. A. Dyer, S. A. Cairns, J. Manos, C. Walton, R. Harris and N. P. Mallick* 189

Association of Specific MHC Supratypes with Rheumatoid Arthritis and Insulin-dependent Diabetes Mellitus *J. McCluskey, P. H. Kay, R. L. Dawkins, K. Komori, F. T. Christiansen and V. J. McCann* 197

Enolase Isozymes as Disease Markers: Distribution of Three Enolase Subunits (α, β and γ) in Various Human Tissues *K. Kato, Y. Ishiguro and Y. Ariyoshi* 213

REVIEW ARTICLE

The Genetic Approach to Infectious Disease, with Special Emphasis on the MHC *W. van Eden, R. R. P. De Vries and J. J. van Rood* 221

Issue No. 4, October–December

The Genetics of Preventive Medicine *R. Harris* 243

Further Serological Characterization of the Heterogeneity of Expression of Human MHC Class II Antigens: Chronic Lymphocytic Leukaemia Cells and Monocytes Differentially Express DR and DC Antigens *K. Guy, A. W. S. Ritchie, V. van Heyningen and A. E. Dewar* 249

Gastricsin in the Cells of Gastric Carcinomas *W. A. Reid and J. Kay* . . . 263

HLA and Blood Group Markers in Multicase Rheumatoid Families—Sibship and Linkage Analyses *A. Read, D. M. Grennan, P. Dyer, W. Dodds, D. Hamer, R. Clague and R. Harris* 271

Isozyme Analysis of the Large Intestine with Special Reference to Carcinoma of the Colon and Familial Polyposis Coli *M. B. Davis, D. M. Swallow and J. D. A. Delhanty*. 283
